SunPatians Expand With Three New Colors

April 14, 2009

Text Size:

The VIVA! line is once again expanding with the addition of three new colors to the SunPatians series. 'Compact Magenta,' 'Variegated White' and 'Compact Rose' are new at The Home Depot for 2009.

"Gardeners and landscapers are looking for low-maintenance annuals," says Ray French, product manager at Florigem. "SunPatians offer color in hot all-day sun with minimal care other than watering. Feedback from university trial gardens, landscapers and gardeners all over the country has been overwhelming."

According to French, growers at the Dallas Arboretum were so impressed after planting a few in their test gardens last year that they planted more than 10,000 in the display gardens this year for summer color.

For more information on the VIVA! collection, visit VivaGarden.com.
